

### **Latest animal and plant pest, disease and weed information**

The attached *Gardennote* Order Form has been prepared by the Department of Agriculture and Food to assist you in responding to enquiries from your clients. Please feel free to display and distribute them.

The Department's "***Pest and Disease Information Service***" also offers a free identification service and encourages the community to send in specimens for identification and testing to determine any potential plant or animal pest, disease, weed or insect threats. Correct identification is central to effective control of exotic pests and diseases that could penetrate our quarantine barrier.

Copies of *Gardennotes* can be obtained by completing the attached Order Form and sending to:

Pest and Disease Information Service  
Department of Agriculture and Food  
3 Baron-Hay Court  
South Perth WA 6151

Freecall: 1800 084 881

Fax: 9474 2405

Email: [info@agric.wa.gov.au](mailto:info@agric.wa.gov.au)

Alternatively, *Gardennotes* can be downloaded from the Department of Agriculture and Food's website address at [www.agric.wa.gov.au](http://www.agric.wa.gov.au).

THANK YOU.
